

# HW301WM1

/ ANTI-SKID PRINTABLE FILM /  
INTERIOR FLOOR marking [R10]

## Need to create, print and apply your designs directly onto the floor?

*HEXIS offer a new anti-slip  
printable film: **HW301WM1***

No need for textured laminates to secure indoor floor markings. A substantial time and money saver!

The **HW301WM1** film provides infinite possibilities of applications on floor surfaces, for more personalised promotional messages, improved health and safety signs and changing interior decorating style.

This film is best-suited for high-traffic areas, such as stores, shopping centres, museums, hotels, train stations, airports, offices and pharmacies.

### Product characteristics

**White matt** printable film

- Monomeric, calendered PVC
- **Embossed** finish with **hexagonal pattern** design
- Removable acrylic adhesive
- **150 µm** thickness
- Compatible inks:    
- **R10** anti-slip classification (according to DIN 51 130 standard)
- **Indoor** application
- Durability on the floor: **up to 6 months** (depending on footfall and cleaning frequency)
- Available in 1370 mm x 40 m

### Product benefits

The **HW301WM1** film features a honeycomb's hexagonal pattern. Thanks to its **R10 level anti-slip structure**, it will provide you with **optimal safety** against slips and falls.

Due to its thickness and its **removable adhesive**, it is quick and easy to apply and remove.

It ensures **good print quality** and lasts for up to 6 months without fading of the floor marking.

**Enforce the barrier gestures to adopt in facing the COVID-19!**

Marked floors are a practical solution to manage the flow of people and promote social distancing in indoor environments

Before each application, please carefully read the technical documentation available on [www.hexis-graphics.com](http://www.hexis-graphics.com)
